Bhimavaram, India | +91 7075688699 | 23pa1a0352@vishnu.edu.in

LinkedIn: Pulagam Hemanth Siva Reddy | Portfolio: [PULAGAM HEMANTH SIVA REDDY]

EDUCATION

Bachelor of Technology in Mechanical Engineering <i>Vishnu Institute of Technology, Bhimavaram</i> CGPA: 8.22 / 10.0 (through 6th Semester)	2023 – 2027
Intermediate (M.P.C) <i>Sasi Junior College, Tanuku</i> Percentage: 91.6%	2021 – 2023
Secondary School Certificate (SSC) <i>Sri Chaitanya Techno School, Penugonda</i> Percentage: 100%	2020 – 2021

SKILLS

- **CAD & Design:** CATIA V5 | AutoCAD | Fusion 360
- **Simulation & Analysis:** ANSYS Fluent (CFD)
- **Presentation tools:** MS Office | Power BI (Basic) | Canva
- **Soft Skills:** Problem-Solving | Adaptability | Teamwork | Time Management
- **Languages:** Telugu | English | Hindi (Basic) | German (Basic)

INTERNSHIPS

Research Intern – Department of Mechanical Engineering, SRM University AP <i>Andhra Pradesh, India — Stipend: 8,000</i>	<i>Jun 2026 – Jul 2026</i>
Successfully simulated bubble formation in a three-phase flow of air, water, and engine oil using ANSYS Fluent — building the 3D geometry, setting up the mesh, and running the full analysis to gain hands-on expertise in advanced CFD techniques. [LINK]	
Manufacturing Engineering Intern – CKD Department, Yamaha Motor India Pvt. Ltd. <i>Chennai, India</i>	<i>Jun 2025</i>
Conducted time-study analysis across multiple assembly and packaging stations to identify inefficiencies in the CKD process. Contributed to digitalizing the traditional packaging method as part of a team effort — redesigning the layout to eliminate zig-zag plates and introducing a weighing machine into the packing line, improving accuracy and consistency in the process. [LINK]	

PROJECTS

Numerical Analysis of Transient Bubble Formation in Three-Phase Pipe Flow <i>SRM University AP</i>	<i>Research Project</i>
Investigated how bubbles form when air, water, and engine oil flow together, using ANSYS Fluent — building the mesh and running simulations to reveal bubble behavior across different flow conditions. [LINK]	
Autonomous Precision Agro-Machine for Planting & Weeding	<i>Team Lead of 5</i>
Led a 5-member team to build a lightweight planting and weeding machine from the ground up — designing the full 3D model in CATIA V5 and proving the frame could handle real operating loads through ANSYS Static Structural analysis. [LINK]	

ACTIVITIES

- **Project Mentor:** Led and mentored a first-year team from concept to finished prototype, guiding their design decisions, part selection, and hands-on fabrication of an Oil Leakage Detection system. [\[LINK\]](#)

- **Event Organizer:** Organized and ran technical workshops and department-level competitions; coordinated orientation programs to help incoming students settle into campus life. [\[LINK\]](#)
- **SSC Member:** Served as a Student Success Centre member, driving student-development programs and institutional engagement initiatives.
- **NSS Volunteer:** Contributed to community service and campus outreach programs.

ACHIEVEMENTS

- 1st Prize, GEAR VIT: Mechanical Engineering Technical Event (Cash Prize: 3,000) [\[LINK\]](#)
- 1st Prize, Researchers Day: Vishnu Institute of Technology (Cash Prize: 3,000) [\[LINK\]](#)
- 2nd Runner-Up, Smart India Hackathon: College Level Selection (Cash Prize: 1,000) [\[LINK\]](#)

CERTIFICATIONS

- **NPTEL Certification:** Introduction to Composites (12-Week Course) [\[LINK\]](#)
